of the requirements of the 25 per cent. Sales of stocks Saturday were only 49,936 shares, including: Sugar, 5,800; Burlington, 5.300; Chicago Gas, 6,500; Distillers, 2,100;

General Electric, 2,000; Louisville & Nashville, 2,000; Reading, 4,500; Rock Island, 10,-600; St. Paul, 14,600. During the two hours of business on the

Stock Exchange the market was decidedly strong in tone, and the shares traded in. with but few unimportant exceptions, showed an improvement ranging from 1/4 to 2 per cent. In the late dealings speculation was most buoyant and the market was firm, with the prices at or near the highest point of the day. The volume of business was light and chiefly in grangers, Chicago Gas, Sugar and Reading. St. Paul led in the transactions, the buying in the stock being remarkably good and a steady advance of 1 per cent., to 66, being recorded, the closing being only 1/8 below the highest. In view of the break Friday in Rock Island there was much interest evidenced as to the course of the stock. and perhaps some surprise at the early adwarce of % per cent. The bears, however, were not disposed to permit the ring to go unchallenged, and they made a drive, as a result of which the entire improvement was lost. The reaction, however, brought out fresh buying orders, under the influence of which a gain of % was made, the last being the best price of the day. Burlington appreciated steadily from opening to close, much of the buying being for the Western account, and an advance of % per cent. was established. Northwest, too, on small trading, showed in the improvement to the extent of % per cent. A purchasing movement in Chicago Gas, said to be promoted by a newly-formed bull root, sent the stock up 1% per cent. of which % was lost in the final trading on realization of profits. Sugar was not in active demand, but at the same time there was no anxiety to seli vance of % per cent. The bears, however, the same time there was no anxiety to sell the stock, and the fluctuations were confined within a limit of 3 per cent. and a net gain of % per cent. was effected.

During the week the share speculation has been irregular and unsettled, and as a result of the trading prices mainly show a decline compared with the final sales of saturday a week ago. With comparatively few exceptions, however, the losses are only fractional, and in some cases advances have been established, notably in Chicago Gas, 134; Toledo & Ann Arbor, 234; Chicago & Eastern Illinois, 3, and Toledo & Onio Central, 5 per cent. In the active list Sugar recorded the heaviest decline, the common stock showing a loss of 6 per cent, and the preferred 4; Rock Island is the chief sufferer of the grange group, closing at a de-cine of 2%. Burlington is down 1/4 and Northwest 1/2, while St. Paul shows a gain of 3/2. Distilling, which broke 43/4 per cent. to 9 on Tuesday (this being the lowest point ever touched by the shares), railied in the subsequent dealings and now shows in the subsequent dealings and now shows only a decline of 2%. The other important losses are: American District Telegraph, 4,

and St. Paul & Duluth, 6. The bond market was strong and fairly sctive and prices generally moved upward, Seattle, Lake Shore & Eastern firsts advancing 2 per cent. Louisville & New Aibany consols rose 1 per cent. On the week the changes are nearly all in the direction of higher figures, the only notable exception being Brooklyn Elevated seconds, which are down 4 per cent. The chief advances are: Minnesota & St. Louis firsts. Southwestern Extension, 9 per cent.; Louis-ville & Nashville, 4; Toledo, Peoria & Western firsts, 3%; New England sixes, 34; Alton & Terre Haute dividend bonds, Reading third convertibles and St. Paul

LOCAL GRAIN AND PRODUCE.

Big Week's Trade, with Prices Steady Except in Sugar. Wholesale men say the trade of the weak closing Sept. 22 was the most satisfactory in many months, and steady prices prevailed in most lines. Sugars are weak, the decline of the week being 4c. Other groceries rule firm. There is some inquiry for canned goods, and fancy groceries are selling better than at any time in the last two years. The provision market is active; prices steady and firm. In the produce line trade has been good. Fruits and vegetables are selling low, except Irish potatoes and really choice apples. The melon market is less glutted than for some weeks past, but prices are weak, as the season is getting late. Poultry and eggs rule steady, and have gone without a change for many months. PECULIAR SUIT FOR \$150,000.

Woman Sues the Estate of a Dead Sprgeon for Breach of Promise to Marry.

BOSTON, Mass., Sept. 22.-One of the most peculiar cases on record is reported here. Miss Mary E. Bartlett, late of Malden, has brought suit for \$150,000 damages against the estate of the late Dr. Henry J. Bigelow for alleged breach of promise of marriage, made by the Doctor some time before his death. She says that she fully believed that the Doctor would have kept his promise to marry her had not death intervened. After the death, Miss Bartlett tried to, recover from his executors \$110,000 which, she said, the Doctor promised her if she remained true to him, but they re-fused to surrender the sum. The suit will be tried in the Middlesex court next week. Dr. Bigelow was one of the best known surgeons of the country. For more than thirty years he was professor of surgery at Harvard, retiring from that place in 1884, receiving the title of professor emeritus. He was known throughout the world as one of the leaders of modern anatomical research, and some of his works are recognized as standards. Miss Bartlett comes of one of the oldest families of the

CHEAPER THAN WHEAT

CASH CORN, FIRST TIME IN TWO MONTHS, NOT THE LEADER.

Wheat Went Off 1-2c Saturday, While Corn Fell 2c-Provisions Lower, Pork Being Down 35c.

CHICAGO, Sept. 22.-Northwestern receipts were heavy to-day and speculators anticipated a heavy increase in the visible supply. As a result wheat shows a loss of 1/2c per bushel, while September corn dropped 2c and May 1c of their previous values. Provisions are lower by 35c in pork, .171/2e in lard and .20e in ribs. For the first time since Aug. 6 No. 2 cash

wheat is worth more money than No. 2 corn. Wheat opened quiet, but firm at a small fractional advance. The firmness was in consequence of the inspected receipts here turning out much less than had been estimated. The estimated receipts were 160 cars and the number actually inspected 108. The general condition of the speculative situation was unchanged. The weakest feature of the day's news was the heaviness of the Northwestern receipts, which at Minneapolis and Duluth amounted to 940 carloads, compared with only 650 on the corresponding day of the year before. The speculative business was local in character and rather light in volume. Fearing the probability of a heavy increase in the visible the crowd was bearish and all the more inclined to sell on account of the weakness of corn. December opened at 55%c' and sagged wearily to 54%c, which was the price when the ten-minute warning bell sounded its caution to prepare for the

close. The desire to sell increased and 5412c was reached near the end, with 541/20054%c the closing price. Corn opened firm, but did not long remain so. It gradually became weak, then

weaker, and was weakest at the end. Stop orders were reached at every 1/3c decline below 52c for May, and as the closing value was 524c there were numerous opportunities for the stop loss orders to come into play. The weakness was principally in consequence of the pressure to sell September, which, for the first time this season, sold at a discount as compared with May, and for the first time in about two months cash corn was cheaper than cash wheat. The receipts were 357 cars by rail and 20,400 bu by canal. September was worth 52%c near the opening and 50%c at the close, while May declined ic from the highest to the lowest price made to-day.

Oats were active from beginning to end.

Selling was still very urgent, mostly long stuff, and prices were again lowered. The corn market was also influential in helping the decline. The first symptoms of the decline were noticeable at the start, when brokers for Cudahy & Co. started to raid the market with heavy offerings. The general disposition was to close out and the eral disposition was to close out, and the price of May declined from 34%c, the opening price, to 34c, the lowest point, and at which price the market closed, a decline of 5%c since yesterday. Boyden and Carrington-Hannah were among the heaviest sellers. October ranged from 291/2c to 281/3c, closing %c under at the latter price.

Hog receipts being light and the grain markets rather firm at the opening, the first few transactions in the provision market showed some steadiness. That state of feeling was soon exchanged for one of

of feeling was soon exchanged for one of extreme weakness. Stop orders on the decline were reached in great plenty from the appearance of the offerings and the packers, led by brokers for John Cudahy, made it easy for stop loss orders to be reached. There was very little recovery at the close from the bottom prices, although a good deal of covering of shorts was in progress during the last fifteen minutes of the session. Business was active during the greater part of the day. er part of the day. Freights slow at 11/2c for wheat and 11/4c for corn to Buffalo, and a load of corn to
